Invitation: Teacher Training Workshop on Sustainable Food Systems at EXPLORIUM

26th September 2026, 10:30–13:30

Location: EXPLORIUM

On the occasion of hosting the interactive exhibition "CLEVERFOOD for everyone", we are pleased to invite you to a **3-hour teacher training workshop** focused on the design of educational activities related to sustainable food systems.

During the workshop, you will:

- Be introduced to **open schooling** and the **whole-school approach**
- Explore how schools can act as **living labs** for food system transformation
- Learn how to integrate the topics that the **CLEVERFOOD Exhibition** addresses into your teaching practice
- Share and co-create **hands-on learning activities** to use before and after a (virtual or in-person) visit with your students.

This workshop is co-organised by **EXPLORIUM** and **Ellinogermaniki Agogi** as part of the **CLEVERFOOD project**. Its aim is to bridge formal and informal education and foster synergies among educators and stakeholders in primary and secondary food education. Participants will have the opportunity to cocreate educational activities linked to the Exhibition and have access to already developed such resources.

Practical details:

- Attendance is free
- Register here: https://forms.gle/x1BFJHWHTGakbwzc9
- For more information, contact: kriviou[@]ea.gr

We look forward to welcoming you to Explorium National Sport & Science Centre!
